

ePortfolio Information and Resources

What are ePortfolios?

- Digital collection of personal information about a learner
- Representation of accomplishments, goals, experiences, and other personalized records
- Can be presented to instructors, schools, employers, or other entities

How are ePortfolios used?

- Document and reflect on learning over time.
- Provide evidence of meeting professional standards
- Provide evidence of learning and achievement for career planning
- Institutional documentation for accreditation

What can an ePortfolio contain?

- Digital artifacts of learning
- Personal information
- Competencies
- Goals
- Evidence of standards attainment
- Activities undertaken or planned
- Achievements
- Interests and values
- Reflections
- Assertions and comments
- Test and examination results
- Involvement in Activities
- Linking between artifacts, goals, reflections, etc.
- Dynamically constructed views and presentations
